

Almaraz, P., Martínez, F., Morales-Reyes, Z., Sánchez-Zapata, J. A., Blanco, G. 2021. Long-term demographic dynamics of a keystone scavenger disrupted by human-induced shifts in food availability. *Ecological Applications*.

Data S1

JAGS code for fitting the state-space, stage-structured density-dependent demographic model through Bayesian Markov Chain Monte Carlo methods.

File list

`S4D3M.jags`

Description

`S4D3M.jags` - This is the code for fitting the S4D3M through Bayesian Markov Chain Monte Carlo methods. The code is written in the JAGS language (Just Another Gibbs Sampler).
